Since 2010, Miss Jen Roby, founder of The We Fit Together Company, has been building Mat Man and sharing the Handwriting Without Tears curriculum (print to cursive) with preschool and elementary children. She is an early childhood educator with her Lead Teacher Certification. Miss Jen has received training directly from Handwriting Without Tears, including: Get Set for School: Handwriting Without Tears for Preschool, Get Set for School: Language and Literacy, Get Set for School: Numbers and Math, Handwriting Without Tears Kindergarten - 2nd Grade, Handwriting Without Tears Cursive Writing, Keyboarding Without Tears and The Print Tool -- the handwriting evaluation method designed by Handwriting Without Tears.

"Millions of students all over the world use Handwriting Without Tears. Our easy-to-teach, easy-to-learn curriculum makes handwriting mastery joyful for students and their teachers.

Research supports the active teaching of handwriting. Recent findings demonstrate that writing by hand improves creative writing skills and fine motor skills. In fact, elementary students have been found to write more and faster by hand than when keyboarding. Select our handwriting program and see just how easy it is to help your students get great results in school." (Excerpt from [www.lwtears.com](http://www.lwtears.com))

Handwriting Without Tears can be found in school curriculums around the world. Visit the Handwriting Without Tears official website, [www.lwtears.com](http://www.lwtears.com), for curriculum information, the history of the company, and full line of Handwriting Without Tears products.
